## WORK EXPERIENCE

### Software Engineer

#### Capgemini

📅 June 2021 – September 2022 📍 Bangalore

- Developed scalable application using ReactJS with Redux as Front-end.
- Assisted in developing journey for multiple policies with testing, deployment, and updates.
- Maintained and documented components and journey under direction of Senior Lead.
- Regular code review and peer test stories of colleagues. Maintained codes in accordance to company standards and best practices.
- Worked in an Agile, collaborative environment to receive design requirements, peer program, and test applications.

### Software Engineer Intern

#### Capgemini

📅 Feb 2021 - May 2021 📍 Bhubaneswar

- Developed a full stack application using .NET stack.
- Implemented front-end technical solutions to meet project requirements for creation of UI.
- Implemented MVC Data First Approach for the backend with Entity Framework
- Led a team of 4 members and completed the application in allotted time.
- Documented and presented the application to the client.
